Ernst Heinrich was born there in 1877 and learned to play the violin, viola, cello, piano and trumpet.. Career[edit]In 1902, at the age of 25 and together with his cousin Gustav August Ficker, Ernst Heinrich Roth started his own violin-making business, where over the years he worked in conjunction with apprentices, many of whom went on to become well-known violin makers in their own right.. He had perfect pitch and absorbed an excellent sense of craftsmanship in his father's workshop.. Sounds wonderfully bold and strong, with very long sustain Hard plastic shell coffin case in good shape, blue plush lining.. Bridge was custom fitted in our shop for low action on the fingerboard 4 finetuners on tailpiece.

The instruments of the Ernst Heinrich Roth workshop were soon in demand all over Europe.. The exact extent of Ernst Heinrich Roth's involvement in the making of his instruments has long been a topic for debate, but it is now generally believed that the best instruments were made mainly by Roth himself..
